FRUDUA DESIGN

Looking for a new guitar? Galeazzo Frudua is pleased to introduce the new **Exclusive** range of guitars and basses including some gorgeous innovative designs and the new “**Legendary Axes Series**” as affordable alternatives to the guitar configurations played by the most famous guitarists of the past half century. All the guitars and basses shown in this catalogue are designed with the intention of giving players the authentic **TONE** and **STYLE** of some legendary instruments at a fraction of the cost.

A unique chance to get a professional quality guitar, get the “secret” **TONE** of those legends of rock, still maintain **YOUR** unique and separate identity without appearing like a clone of the original.

SPECIFICATIONS

SCALE:	25 - 1/2"
CONSTRUCTION:	Bolt on
NUT:	Graphite
BODY:	Basswood + AAAA quilt maple veneer
NECK:	Hard rock maple
FRETBOARD:	Hard rock maple
FRETWIRE:	22, Medium jumbo
HARDWARE:	Gold
TUNERS:	Frudua locking tuners
BRIDGE:	Wilkinson WVP6
PICKUPS:	Frudua H/S/S alnico
CONTROLS:	Vol, tone
SWITCHING:	5 positions Frudua switch (*)

(*) Connects bridge and neck pickups in middle position.

PLUS

The **PLUS** scores an A and adds a whole new dimension to our Exclusive (yes this is without the "C") series of guitars. The original ergonomic shape is equipped with 3 alnico pickups wired thru the Frudua 5 way switch, which enables the player to select the neck and bridge in 3rd position for that gorgeous "telly" tone. A special Wilkinson tremolo works in conjunction with the Frudua locking tuners and a graphite nut to provide you with the best stable tuning ever. US basswood body, premium grade quilt veneer top and abalone dots, complete this stunning beauty which introduces us to the next step. More details at www.exclusiveguitars.com

- PICKUPS: DiMarzio Evolution
- CONTROLS: Vol, tone
- SWITCHING: 5 positions
- COLOUR: White

THE ALIEN

Guitar virtuosity, a mastery of exotic scales and an ear for other-worldly sounds are the trademarks upon which the ALIEN model is designed. The ALIEN guitar combines the features best loved by one of the world's most innovative and respected guitarists. Not all rock music is based on blues, dorian and natural minor scales. If you lean towards lydian modes and love to include fusion, jazz and whammy bar acrobatics into your playing, this may be the instrument for you. As a part of Exklusive's "Legendary Axes" series, we pay our respect to this extraordinary era with a special guitar that accurately reproduces that tone. More details at www.exclusiveguitars.com

Due to continuous improvements specifications and features may change without prior notice. Colours are only indicative.

BLACK DEATH

Growling riffs, flattened 5th notes and a tone that sounds like the Devil himself. The BLACK DEATH features all the specifications you need to be the "Father of Heavy Metal" yourself. In the early 70's modern metal was born and the idea of HEAVY riffs, pentatonic blues solos and C# de-tuning was introduced. Now this tonal thunder can be at your command. As a part of Exlusive's "Legendary Axes" series, we pay homage to the dark side with this guitar and give you the chance to harness the same tone at a price that you won't be require to sell your soul for! More details at www.exlusiveguitars.com

SPECIFICATIONS

- CONTROLS: Minimum signal path (volume knob only, no tone)
- SWITCHING: 3 position (not connected in pos. 2)
- COLOUR: Vintage white

SHREDDER

In 1984, a new range of techniques totally redefined rock guitar virtuosity for the 80s and 90s. While blues had been the basis for rock music from the 1950s to later 70s, guitarists were now introduced to classical elements like harmonic minor scales, modes, pedalpoints, full range scale patterns, arpeggios, and high speed alternate picking. As part of Exclusive's "Legendary Axes" series, we pay tribute to this style of playing with a highly detailed guitar equipped with all the best features for playing that style of music. More details at www.exclusiveguitars.com

SPECIFICATIONS

ERUPTION

In 1978 the music world was turned on its ear by the arrival of a new guitar style which introduced the world to fingertapping, divebombs, squealing harmonics and ushered in a whole new era of rock guitar playing. As a part of Exclusive's "Legendary Axes" series we pay homage to that time in history with a special Exclusive guitar that accurately reproduces that point in time like, for example, the Seymour Duncan "Custom '78", mounted in the exact position along the scale of the original to capture all the harmonics and details of the famous "brown sound". FUSION-5

The Fusion bass is the result of our 20 years custom bass making and live gigging. Everything in this bass is the carefully designed to provide the professional live and studio way to your tone at an affordable price. Frudua custom designed humbucker, reverse "P" style pickup configurations, selectable neck coil for vintage tone, 40Hz bass and 4000Hz treble EQ, all combine to enable the bassist to perfectly mix with the bass drum and enhance the low end. Two volumes instead of a balance knob to fully utilise 100% of the pickups level and 18mm string spacing to suit every kind of right hand style complete the Fusion 5. SUPERB-5

The SuperB-5 Bass we pushes the Fusion concept even forward. We custom designed and built the ESA-COIL Frudua noiseless pickup which we placed along the scale of the instrument in the exact position to capture the two most sought after bass tones of all times and the most defined Low B string you've ever heard. A user friendly two volumes, treble and bass harness, allows you to have complete and immediate control of your tone. Finally, the double action truss rod delivers perfect neck adjustment and the most comfortable action you may desire. Read more on SuperB design and features at www.exclusiveguitars.com
